- Some exchanges are open to all VT majors and some are limited to certain colleges, majors, and semesters. Students should view the academic tab in each program page in the GEO site for more information.
- Exchanges must stay in relative balance of students coming and going. As such, sometimes exchanges need to close for rebalancing. Students should select a first and second choice when applying for an exchange.
- VT students going on exchange will pay VT tuition and fees and the partner university students pays their home tuition and fees to their home university. Students essentially "switch spots" with another student at one of our partners.
